WORK EXPERIENCE

Cloud DevOps Engineer Evrone Team

02/2022 - Present

Remote

Evrone.com is an IT consultant Company specializing in the development of services.

Achievements:

- Set up infrastructure as code using Terraform and Terragrunt for AWS cloud services, including EKS, S3, EC2, RDS, VPC, and more.
- Deployed FluxCD to transition from a traditional push-based approach to a more efficient pull-based deployment strategy, streamlining continuous delivery.

DevOps Engineer Arbuz Team

04/2021 - 02/2022

Almaty/Kazakhstan

Arbuz is an online supermarket that has quickly become the largest one in the country.

Achievements:

- Transitioned the system from Docker Swarm to Kubernetes, leveraging its advanced deployment management capabilities and robust ecosystem to optimize application deployment and scaling.
- Created a detailed architectural diagram that informed the seamless migration of applications to the Public Cloud, accounting for critical considerations such as infrastructure, security, and compliance.

System Administrator Kolesa Group

08/2019 - 04/2021

Almaty/Kazakhstan

Services for the placement and publication of private ads for the sale and purchases.

Achievements:

- Administered more than 2500 virtual machines across five data centers using Proxmox clusters, ensuring high availability and seamless operation.
- Implemented AWX on Kubernetes and migrated all playbooks to the platform, enabling more efficient automation and streamlined deployment processes.

System Administrator RG Brands

04/2018 - 07/2019

Almaty/Kazakhstan

RG brands is a leading beverage company.

Achievements:

- Oversaw more than 100 physical and virtual servers, ensuring their smooth operation and high performance.
- Effectively managed Microsoft Active Directory for a user base of over 600 individuals and computers, ensuring secure and efficient access to key resources.
